

TO WHOM IT MAY CONCERN

QUALITY DECLARATION WITH REGARDS TO FIRE CLASSIFICATION

With reference to our products GEZOFLEX and GEZOFILL, we hereby declare:

Both products use identically fire classified chemicals, plasticizers and fillers.

Both products are formulated differently in terms of chemicals type, chemicals percentage and vulcanization process.

With reference to fire class according to EN 13501-1, it is therefore to expect that both products behave identically.

The test report from CSTB no. RA08-0325 dated July 25th, 2008, issued for the product family GEZOFILL, is guaranteed to cover GEZOFLEX as well.
